

# Piezo element products group

## Examples of electrode specification.

Silver (Ag) electrode by high-temperature baking, Nickel electrode (Ni) by chemical plating, Gold (Au) electrode by chemical plating or sputtering.  
Please contact us for the electrode pattern.

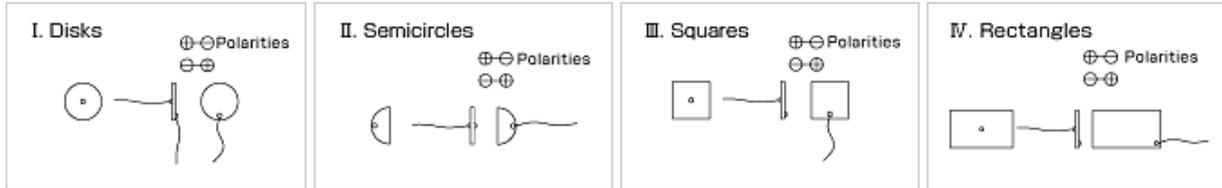

# Piezo element products group

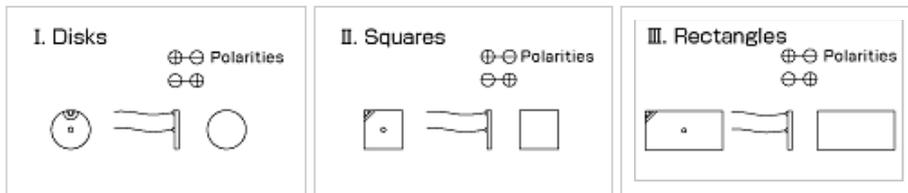

## Examples of lead wire soldering.

If there is a request, it will soldering the lead wires. Please contact us for wire materials and size.

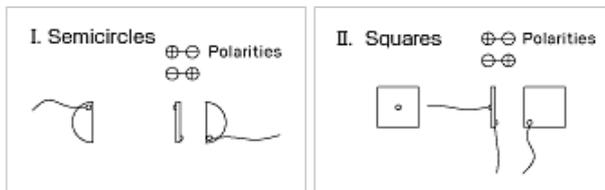

### (a) Both sides each 1-wire

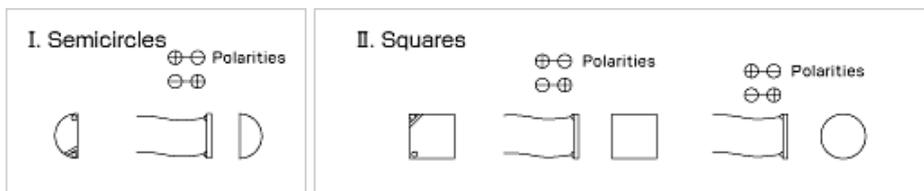

### (b) One side 2-wires

### (c) Both sides each 1-wire

### (d) One side 2-wires

Inquiry of order and specifications, please let us know the following matter.

1. Shapes. (example, Disks, Semicircles, Squares, Prismatic, and others information.)
2. Materials or key properties. (example, material systems, and the applications, etc.)
3. Size. (but, the dimensions of the portion not related to the resonant frequency.)
4. Frequency. (oscillation mode or resonant frequency for uses.)
5. Electrode specifications. (example, pattern of the electrode area, etc.)
6. Lead terminal. (if the lead terminals is needed, the wires rod and the mounting positions.)
7. Other requirements and specified matters.
